

Leach Teaching Gardens

Opened in 2018, the Leach Teaching Gardens cover more than seven acres. These gardens remind us that we rely on plants for the air we breathe, the food we eat, shelter we need, and medicine we can't live without. The gardens are an outdoor classroom for everyone.

Our Land-Grant Mission

Bringing new information to the public is at the core of our founding land-grant mission at Texas A&M University and Texas A&M AgriLife. At the Leach Teaching Gardens, faculty and staff teach the public, students, and professionals about food production, landscape beauty, and reconnecting with nature. What's in the gardens changes regularly, and students create exhibits as part of their training.

About Texas A&M AgriLife

Texas A&M AgriLife is a diverse organization dedicated to research, education, extension, service, and solving problems in agriculture, natural resources, animal and human health, and the environment. AgriLife contains the Texas A&M University College of Agriculture and Life Sciences, Texas A&M AgriLife Research, the Texas A&M AgriLife Extension Service, Texas A&M Forest Service, and the Texas A&M Veterinary Medical Diagnostic Laboratory. Learn more at AgriLife.org.
