

PATH TO THE GARDENS BRICK CAMPAIGN

Show your support of The Gardens at Texas A&M University by purchasing an engraved brick for the main path into the Leach Teaching Gardens. Your gift will help us look after The Gardens every season and allow us to offer programs that create community and develop a wonder for plants and nature.

Your engraved brick is a lasting legacy to celebrate a graduation, honor a loved one, pay tribute to a favorite professor or colleague or remember your time as a student.

You can purchase an 8-by-4-inch brick for \$500.

Brick Installation

Bricks will be placed in the main path to The Gardens, between the Wildlife, Fisheries, and Ecological Sciences building and the Event Lawn. They will be installed twice a year in the fall and spring, but you can order a brick anytime to be included in a future installation.

Brick Message

You're welcome to customize your engraving with any keyboard characters you like, and the special character "♥" is also available. The engraving will be in all uppercase letters in black. Each brick fits a maximum of three lines with 15 characters per line, including spaces and punctuation. To save space and for consistency, we will use "&" rather than "and." Personalized messages are welcomed, but all brick inscriptions are subject to approval.

If your message does not fit on three lines of 15 characters, please contact us at gardenbricks@ag.tamu.edu. We can help you abbreviate or discuss purchasing multiple bricks.

Brick Placement

Unfortunately, we cannot guarantee brick placement. We can, however, provide a map of the location of your brick after installation. Once installed, they will remain for the life of the pathway.

Commemorative Bricks

You may purchase a replica brick for \$150 to keep as a special memento and decoration. It will be engraved during our twice-a-year installation times. After your purchase, you will receive more information about the delivery time of your replica brick.
